

Jeremiah Atwell

Full Stack Software Engineer • Brooklyn, NY

jea989@gmail.com • [917-727-7693](tel:917-727-7693)

github.com/mai-gh

Technical Skills

- JavaScript, TypeScript, Python, C, Java, Rust
- NodeJS, Express, React, Redux, SQL, HTML, CSS
- Linux/Unix, Bash, Vim, Git, Make, Selenium
- CAD, EDA/PCB Design, Testing, Automation, GIS

Projects

ASPMAP.nyc • Full Stack Developer • aspmap.nyc 2023

View NYC Alternate Side Parking overlaid on a city street map.

- Converts ArcGIS Shapefiles from NYC Open Data to GeoJSON for display using [OpenLayers](https://openlayers.org/)
- Parses city work orders to display exact boundaries of alternate side parking zones
- Highlights streets with a single alternate side parking day, to minimize extra driving
- Android app ([available on the google play store](https://play.google.com/store/apps/details?id=com.aspmap)) caches all map data, enabling offline use

Canvect • Full Stack Developer • canvect.com 2022

In browser 2D canvas vector drawing tool

- Use-cases include: Architectural, Artistic, Electronics, etc.
- Import / Export to SVG
- Completely vanilla javascript with no external libraries

Employment

Lead Full Stack Software Engineer, Pacer Automated Solutions, San Francisco, CA (Remote) 2023

- Successfully transformed an unfinished prototype into a fully operational product
- Trained and assisted junior developers in debugging environment & coding issues
- Developed unit testing for frontend & backend
- Automated accessing federal court records using undocumented [CM/ECF](#) public apis

Electronics / Software Engineer, freelance, New York, NY 2017—2023

- Designed and assembled electronic systems for conceptual art projects
